Join the QUEST for Quality Engineered Software!

ObjectSharp Consulting presents in the premier of QUEST EXPO Theatre

Owning the right tools is a good start; however being able to use them effectively is the difference between an effective team and an ineffective one. As experts in implementing Microsoft's Visual Studio Team System (VSTS), ObjectSharp Consulting is well positioned to help you make the best use of an incredibly powerful tool. Whether you want to write automated web tests, or need to perform load testing, VSTS can help. ObjectSharp helps you make the choices to ensure that your team gets the most out of VSTS. So they can collaborate effectively and create the best software possible, on time and on budget.

**Special Thanks to
ObjectSharp Consulting
as a Silver QUEST Sponsor**

Visit the Exhibitor EXPO

Be sure to stop by ObjectSharp Consulting's booth and talk with representatives. Visit all booths and be eligible for the grand prize drawing!

Create Your Own Unique QUEST Experience – www.qaiquest.org/toronto

Exclusive Manager's Workshop (Sept. 22-23)

Begin your **QUEST** experience in a highly interactive setting, where you can work together with the QAI professional staff, subject matter experts, and your peers to develop strategies and solutions to common challenges facing quality and test managers. This two-day problem solving workshop is designed for managers.

Full Day Tutorials (Sept. 22-23)

If you are looking to build new skills or gain in-depth knowledge, then include full-day tutorials in your **QUEST** experience. Choose from eight tutorials covering process improvement, risk management, test process, test automation, requirements-based estimation, measurement, test design, and agile testing.

3-Day Conference and Exhibitor EXPO & Theatre (Sept. 24-26)

Create your own custom 3 day learning experience. Learn from 4 keynote presentations, 16 industry expert sessions, and 15 solutions benchmarking and case studies sessions. Apply your learning in 8 solutions or action planning workshops. Sign-up for individual coaching, visit the exhibitors' booths, attend product solutions sessions in the EXPO Theatre, and enjoy 3 networking events.

2-Day Certification Preparation (Sept. 22-23)

If you are seeking professional certification as a Certified Software Tester (CSTE) or Certified Software Quality Analyst (CSQA), then add the 2 day prep courses for CSTE and CSQA to your **QUEST** experience. You can elect to take a full practice test for either the CSTE or CSQA to assess your readiness to sit for the exam, if you register for the three day conference.
